Other	9,551	4,338
Total	**137,566**	**39,543**

PLEASE NOTE: Due to daily allocations, the above inventory is subject to change and/or deplete quickly.

Escalation: How We Support Critical Need

Provider Escalation to Central Region	Central Region Stock
• Provider has seven days' worth of supplies or less remaining. • Provider's rate of consumption is indicated and valid (if a new item, estimate consumption rate). • Request is for **maximum of five days' worth of supplies** - based on rate of consumption *(i.e. surgical masks – 50 used daily = request for 250 surgical masks)* • Complete shipping information, including a contact and phone number available after hours to accept or confirm delivery logistics.	• Managed at the **regional** level • PPE allocation from the province on a weekly basis • PPE requests are filled from the Central Region Stockpile if stock is available • Requests for PPE unavailable are escalated to MEOC
Central Region Escalation to Provincial Stockpile	**Ministry Emergency Operation Centre**
• Requests that **cannot be filled** through Central Region's provincial allocation warehouse, are escalated to the Ministry Emergency Operations Centre (MEOC)	• Manage PPE allocation at the **provincial** level • Procure PPE for the province • Receive federal and provincial PPE shipments

For questions on PPE allocations, please contact us at OHCentralPPEInquiries@lhins.on.ca, and for further information access the PPE resources pages.
